

List of Poster Presentations

Posters will be displayed on 1 floor, SINES, Building

Abstract ID	Title of Poster	Author's Name
8	Enhancing Flexible and Distance Education: Teachers' Role in Primary School Academic Behavior through Machine Learning Insights	MUHAMMAD AMIN NADIM
98	Can Multimodal LLMs Understand Stuttered Speech? A Prompt-Based Exploration on SEP-28k	Seemab Latif
101	Machine learning-driven exploration of MOFs for efficient hydrogen storage.	Kinza Ali
114	Multimodal Analysis for Stress Detection Using Deep Learning	Laiba Shafique
Submitted via email	Innovative approach for high performance anode material design.	Samreen Mubarak
Submitted via email	Cutting-Edge Advances in CO ₂ Capture: Emerging Materials and Technologies for a Carbon-Neutral Future	Asma Rashid, Amna Aslam
118	A LLM-Based Assignment Generation: A Domain-Adaptive Framework for Curriculum-Aligned Educational Content	Abdul Rehman
119	SwinScan: Enhanced Abnormal Brain Tumor Classification Using Swin Transformers	Abdul Rehman
123	Smartphone Based Pothole Detection System Using YOLOv8 for Real-Time Day and Night Road Condition Monitoring	Zeeshan Qureshi
128	Yield strength and ultimate tensile strength prediction of high entropy alloys (HEAs) using machine learning	Aleeha Jamal
166	Review of High Impact Works: Employing Artificial Intelligence and Unmanned Aerial Vehicles for development of Precision Agri Solutions	Atif Sohail A.
172	An AI-IoT Framework for Real-Time Child Safety Monitoring and Cyber-Secure Alert Systems in Urban Commutes	Jeetash Goswami
105	Climate Advocacy in Higher Education: Exploring Public Perception and Practices on Energy, Water, Food, Nexus to Develop a Campus Sustainability Framework	Mah fatima
